Reply-To: William Grace Frost <[REDACTED]>

City of Sebastopol,

The Local Coastal Plan is seriously flawed and detrimental to all who live, work and play here. The traffic to and from the coast is already becoming intolerable for those of us who live here and want to enjoy the restaurants, wild and scenic beaches and headlands hikes.

I strongly encourage the City of Sebastopol to write a letter to the County of Sonoma expressing our concerns about the recent draft of the unsound Local Coastal Plan. As written, the current draft would have a detrimental impact on Sebastopol and the coast by increasing the carbon footprint and by depleting the effectiveness of emergency services.

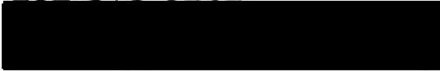

We have been looking to buy a home in the Sebastopol and/or coastal areas for over a year, and as you likely know the market is extremely tight and seriously over-priced. This proposed plan for coastal development would only serve to exacerbate the situation with the continued loss of housing stock to short term AirBnB and VRBO rentals, as well as, paving the way for more commercial development. Commercial development in particular could vastly diminish the natural beauty, wildlife habitats and recreational pleasures that we cherish so dearly.

Please, please, please vote "yes" Tuesday at your meeting and send a message to the County with Sebastopol's concerns.

Thank you,

In peace & gratitude,
William

Dear City Council members and Mayor:

I am respectfully asking you to forward a letter to the Planning Commission asking them to delay approval of the Local Coastal Plan as currently submitted. It is a very flawed document on many levels (see the attached letter from the California Coastal Commission to Permit Sonoma as an example). Community input and CCC requests need to be considered, as the current plan does not adequately protect the jewel of our Coastal zone.

Thank you,
Reuben Weinzveg

I have personally spent at least 60 to 70 hours reviewing, researching and writing comments on the draft Local Coastal Plan. As I reviewed the draft that planners said had only minor I became very alarmed the changes proposed were great and a threat to the coast. References to make the document readable to the average lay person were lax at best.

I am writing to encourage the City of Sebastopol to write a letter to the County of Sonoma expressing their concerns about the recent draft of the seriously flawed Local Coastal Plan. The current draft would have a detrimental impact on Sebastopol and the coast in terms of traffic, carbon footprint, emergency services and the **continued loss of housing stock to short term rentals**, not to mention paving the way for more commercial development. **Please vote yes Tuesday at your meeting and send a message to the County with Sebastopol's concerns.**

Thank you for your time and consideration as this is a 20 year, multi- generational document and we need to get this right.

Please consider writing a letter to the County of Sonoma with regard to concerns about the recent seriously flawed draft of the Local Coastal Plan prepared by the County. This draft, if implemented, will have a serious impact on the future of our coast and the surrounding area in terms of traffic, unwarrantable development, environmental damage, emergency services and more.

Your vote on Tuesday to send a letter with the concerns we all have will go a long way toward achieving our goal of Saving Our Sonoma Coast.

Thank you for your consideration.

Sincerely,
Margaret "Maggie" Briare
