Dear Sebastopol City Council,

Many of us have spent the last 10 years of our lives creating, and investing our time, money and energy, into what has become a gathering place for passionate small independently owned businesses, and a safe place for the residents of Sebastopol to gather and share Food, Art, Wine, and spend time together.

Under the supervision of this council the City Manager, Police Chief, and City Planner, have ignored our pleas, to stop allowing 12-16 people who own RV's to park them illegally, blocking bike lanes, Sidewalk access, dumping human waste, storing gasoline and propane illegally, and verbally abusing myself, and staff multiple times.

This is public space. It does not belong to the small group who have taken it hostage.

It's the responsibility of our city council, our city manager, our city planner and our police chief not to let this happen.

Please do not remove our bike lanes.

Instead...please remove the RV's, who's owners are operating illegally.

Thank you,

Barney Aldridge
Managing Partner
