To whom it may concern,

I live at Gravenstein apartments, and have grave concerns. My community consists of families and disabled people. I am disabled with PTSD, and worry about stragglers. As it is, I have seen many people with mental issues, screaming into the street, near the bus stop. My 8 yr old nephew lives next door, and attends the charter school. I'm all for helping people, but this is unwise and unsafe. Brookhaven middle school is also very close. There are three stores to purchase alcohol. Isn't there a ranch or piece of property, that could be self-maintaining, with a garden and landscaping? Mental health and other services?

I have never contacted anyone from the city council, but feel the need. As, I don't think you have our needs at heart.

Thank you for your time,

Lori Eagleton
