Dear Ms. Gourley,

I just read the news this morning that the proposed village has been relocated to North Gravenstein Highway. I live on Mill Station Road and travel past the site everyday. I hate to be a NIMBY but this does not seem to be either a safe or ideal location. Locating this village amongst several businesses and foremost, next to a liquor store does not seem like a smart idea. There is also a public elementary charter school less than 1/2 mile away and young children walk past this site every day. While I agree that the homeless need a site, it should be in a location that preferably is not an eyesore in a community that is considered upscale. This will affect property values and most likely, crime in the area.

Please reconsider again where a village can be placed that will not place an undue burden on a neighborhood.

Thank you,  
Jason Erlick
