Subject: Proposed homeless shelter
Date: Tuesday, November 30, 2021 11:51:45 AM

Hello

I am a parent of a student at Sebastopol charter which is very nearby to the proposed shelter. I have encountered many homeless that are littering their area with dirty needles and broken glass and/or are mentally ill and mutter and swear. I would not want the children interacting with such hazards. Is there anything in this plan to prevent or supervise the activities of the residents? Can this proposal be moved to a safer location?

Will the residents be screened for sexual predators, drug addiction, or severe mental illness?

Please consider these issues carefully. I am unable to attend the meeting today.

Thank you

Eric Bergman
