Dear Sebastopol City Council

We are very much in favor of the site on the Amerigas property. No place is ideal, but we think because this area is on the highway and conveniently near bus stops, food services, and shopping, it comes close. Because the RVs will be parked in a lot there, they won't be taking up the street and sidewalk in Morris St.

We feel this site is far superior to the idea of having it in the parking lot by the Sebastopol Preserve/Youth Annex/Community Center because that recreation area is so heavily used by our city's residents.

Thank you,
Arlene and Bradford Kallen
