Subject: Objection About New Meters - Phyllis Niklas
Date: Tuesday, December 07, 2021 2:51:14 PM

Hi Mary,

I just received a call from Phyllis Niklas – she would like to object to the plan for installing the new cellular meters and she is stating that she can't believe this is going through after all the fuss about the PGE smart meters. There are quite a few people in the area who are EMF sensitive.

Thanks,

Miko Lim | Accountant/Analyst
