These Resolutions stated that the continuance of teleconference meetings, “may be extended by the adoption of subsequent

**BACKGROUND:**

The Ralph M. Brown Act (Brown Act) allows for meetings via teleconferencing subject to certain requirements, including that the legislative body notice each teleconference location of each member that will be participating in the public meeting, that each teleconference location be accessible to the public, that members of the public be allowed to address the legislative body at each teleconference location, that the legislative body post an agenda at each teleconference location, and that at least a quorum of the legislative body participate from locations within the boundaries of the local agency’s jurisdiction. (Government Code Section 54953(b)(3)). However, to prevent the spread of COVID-19. The State of California and the City have proclaimed the existence of a State of Emergency as a result of the threat of novel coronavirus disease 2019 (COVID-19).

In an effort to reduce the spread of COVID-19 at public meetings, the Governor of California issued executive order authorizing local legislative bodies to hold public meetings via teleconferencing; these provisions expire on September 30, 2021. On September 16, 2021, the Governor signed into law Assembly Bill 361 (Stats. 2021, Ch. 165) (AB 361) which waived certain provisions of the Ralph M. Brown Act (Brown Act) in order to allow local agencies to continue to meet remotely during a state of emergency that makes it unsafe to meet in person. On November 17, 2021, California Governor Gavin Newsom has extended his state’s COVID-19 state of emergency declaration through March 2022 as well as the City of Sebastopol’s Extension of Emergency Proclamation of Local Emergency (COVID-19) issued by the Director of Emergency Services.

AB 361 amends Government Code Section 54953 applicable to public meetings held by cities and counties. AB 361 provides an alternative to the teleconferencing requirements of Government Code Section 54953(b)(3), as long as a state of emergency exists and the local legislative body makes certain factual findings regarding the state of emergency, including that meeting in person would present imminent risks to the health or safety of attendees. When there is a continuing state of emergency, or when state or local officials have imposed or recommended measures to promote social distancing, AB 361 would require a legislative body to make specified findings not later than 30 days after the first teleconferenced meeting pursuant to AB 361, and to make those findings every 30 days thereafter, in order to continue to meet under these abbreviated teleconferencing procedures. The attached Resolution makes these required findings and if adopted will allow the City Council and its subordinate bodies to continue to hold public meetings by teleconference to help mitigate the spread of COVID-19.

AB 361 requires the City Council to make these findings every 30 days to continue holding teleconference hearings without members of the City Council and the public being physically present. Staff will agendize a similar action once a month until the state of emergency is over, the City Council no longer believes teleconference meetings are necessary to protect the health or safety of City Council meeting attendees, or until Government Code Section 54953 expires on January 1, 2024.

The City Council, at their September 21, 2021, October 19, 2021, November 16, 2021, December 7, 2021, January 4, 2022; February 1, 2022, March 1, 202, March 15, 2022, April 5, 2022, May 3, 2022 and May 17, 2022 Council Meetings, found the City to be in compliance with AB 361 and authorized the City Manager to Implement Teleconferenced Public Meetings For All City’s Committees, Commissions, and Boards Pursuant To Assembly Bill 361 and finds that during a proclaimed state of emergency, and state or local officials have imposed or recommended measures to promote social distancing, the City Council and all commission and committee meetings will be held by videoconference.

The City has already implemented the above stated requirements for conducting public meetings and is in full compliance with AB 361. There have been no changes of the currently established procedures. Teleconference accessibility via call-in option or an internet-based service option (via the Zoom platform) is listed on the published agenda for each meeting as well as on the City’s website. The City monitors attendance via teleconference as well as email correspondence (as published on the agenda) throughout each public meeting and provides access for public comment opportunities.

The City also continues use of limited office hours, online permitting, online meetings, by appointment only meetings, as well as teleworking on a case by case basis similar to other cities.

**DISCUSSION:**

AB 361 provides an alternative to the teleconferencing requirements of Government Code Section 54953(b)(3) as long as there is a state of emergency and the Legislative Body makes certain factual findings regarding the state of emergency. When there is a continuing state of emergency, or when state or local officials have imposed or recommended measures to promote social distancing, AB 361 would require a legislative body to make specified findings not later than 30 days after the first teleconferenced meeting pursuant to AB 361, and to make those findings every 30 days thereafter, in order to continue to meet under these abbreviated teleconferencing procedures.

The Director of Emergency Services has the power “to proclaim the existence or threatened existence of a “local emergency” with council ratification of the proclamation of a “local emergency”. This ratification resides with the City Council and not Commission, Boards or Committees. The Council has established Commission, Boards and Committees, necessary for the effective accomplishment of municipal business and to help accomplish City business and make recommendations to City Council.

The enclosed Resolution makes the required findings under AB 361, and if adopted, will allow the City to continue to offer teleconference accessibility for public meetings (Council and all City Commission, Board and Committees) to help mitigate the spread of COVID-19, as well as during other state-proclaimed emergencies, such as earthquakes or wildfires, where physical attendance may present a risk. The attached Resolution makes these required findings and if adopted will allow Council and all City Commission, Board and Committees to continue to hold public meetings by teleconference to help mitigate the spread of COVID-19.

AB 361 amends Government Code Section 54953 (part of the Brown Act) to provide an alternative to permitting the public to access the locations from which City Councilmembers are teleconferencing. In order to have teleconference public meetings without providing access to City Councilmember’s remote teleconference locations (typically, their private residences), the City Council must pass a resolution stating that:

1. The City Council has reconsidered the circumstances of the COVID-19 state of emergency and that any of the following circumstances exist;
2. The state of emergency as a result of COVID-19 continues to directly impact the ability of the members of City Council and the members of the City’s subordinate bodies to meet safely in person; and/or
3. State or local officials continue to impose or recommend measures to promote social distancing.

AB 361 also includes requirements intended to ensure that the public is able to watch teleconference meetings and participate by making public comments during the meetings. These requirements are already being implemented by the City, and include:

- Public Comment Opportunities in Real Time – a legislative body that meets remotely pursuant to AB 361 must allow members of the public to access the meeting via a call-in option or an internet-based service option, and the agenda for the remote meeting must provide an opportunity for members of the public to directly address the body in real time. A legislative body cannot require public comments to be submitted in advance of the meeting.
- No Action During Disruptions – in the event of a disruption that prevents the local agency from broadcasting the remote meeting, or in the event of a disruption within the local agency’s control that prevents members of the public from offering public comments using the call-in option or internet-based service option, AB 361 prohibits the legislative body from taking any further action on items appearing on the meeting agenda until public access is restored.
- Periodic Findings – Government Code § 54953(e)(B) requires the legislative body to hold a meeting during a proclaimed state of emergency for the purpose of determining, by majority vote, whether as a result of the emergency, meeting in person would present imminent risk to the health or safety of attendees.
- Providing notice of the means by which members of the public may access teleconference meetings and offer public comment, including providing an opportunity for all persons to attend via a call-in option or an internet-based service option.
- Prohibiting the legislative body from closing the public comment period until the public comment period has lapsed or until a reasonable amount of time has elapsed.

The City has already implemented the above stated requirements for conducting public meetings and is in full compliance with AB 361.

The Sonoma County Health Officer is recommending social distancing, and the City has implemented the Health Officer's orders by:

- Encouraging social distancing
- Posting COVID-19 safety measures on the City's social media pages;
- Limiting the hours that the public may enter City Buildings;
- Placing hand sanitizer stations in City Hall and all City offices; and
- Closure of City Hall to the public with limited appointments;
- Continuation of Teleworking on Case by Case Basis
- Providing on line services to allow the public to access City services, including obtaining permits, online rather than in person.

Staff will continue to agendize this item once a month per AB 361 or until the state of emergency is over or City Council no longer believes teleconference meetings are necessary and there are no circumstances of state of emergency that would directly impact the ability of the members of City Council and the members of the City's subordinate Committee's, Commission's, and Boards to meet safely in person or until Government Code Section 54953 expires on January 1, 2024.

Returning to meeting in the Council Chambers or smaller conference rooms means being in an enclosed space for meetings that commonly last for one to five hours and would seem to create additional exposure for participants to a possible transmission of the virus.

In consideration of the new norm, City Administration will continue to review limited office hours and continuation of teleworking on a case by case basis and will continue to provide updated information to the City Council.
