

**CITY OF SEBASTOPOL  
Climate Action Committee Draft Logos**

The Climate Action Committee plans to conduct in-person outreach at the Farmer’s Market and other locations as part of community engagement efforts for the Climate Action Framework and Upcycled Art Project. The logo would be used on signage for these outreach events as well as future Committee projects. At their December 20, 2021 meeting, the Committee discussed creating a logo that references the logo of the Sebastopol Climate Action group, which included the image of Earth superimposed on an apple. Several potential designs have been developed by the CivicSpark Fellow and are included below (Fig. 2).
