Hi Mary,

Could you forward this email to city council.

We have heard that the planning department is considering removing the baseball field. We have also heard you want to add a dog park. Please don't do either of these poor ideas.

Creek mitigation can be accomplished without destroying the field or adding a dog park, which we already have. As dog owners we wisely never use a dog park! We love Ives and use it frequently.

Thank you, Steve and Janese Nank
