Subject: No on Smart Water Meters
Date: Tuesday, February 15, 2022 6:39:40 AM

Hello Sebastopol City Council,

Please vote against the proposal to install "smart" meters for Sebastopol's water meters. This will cause an unnecessary cost increase, an increase in environmentally harmful electronic waste, and expose Sebastopol's residents to more EMFs, the potential risks of which are still unknown. Please keep our current water meters.

Thank you,
Taylor and Sylvan Cary, Sebastopol residents
