Dear Mary,

So sorry to add to your many tasks. Could you please now forward this last correspondence w. Kari to the City Council members this morning.

Much thanks. Have a good day.

The letters July-Dec. 2021 that you refer to and show on the site are a 'hodge-podge'; many blank pages & resident letters mixed in with dialogue from a public Design Review Board meeting with the developer Aug. 2021. Is it possible that you added them today?

I did move the 'pubic comments' to the last part of the Woodmark project section, so that those looking for the project documents would be able to find them more easily (they are now first under that section).

Where are the letters of concern about the Woodmark development that have been sent to the Planning Department in the last 10 months? I believe the last upload of letters was April 30, 2021. This really is unacceptable. Do you not want the Sebastopol community and those outside Sebastopol to be aware of the

neighboring residents input and concerns?
