**Subject:** SAVE OUR WATER METERS  
**Date:** Monday, February 14, 2022 3:42:10 PM

---

As a resident of Sebastopol since 1971, 51 years, I respectfully ask that you PLEASE keep the current water meters. I am terribly concerned about the health ramifications to our residents, especially the children.

Please do not replace our water meters with smart water meters that cost 2.2 million dollars. I think that kind of money can be utilized for more positive issues in Sebastopol.

Please search your heart to do the right thing.

Respectfully,

Sebastopol resident
