

Attached is a photograph of an impromptu petition. My 18 year old son took it upon himself Saturday night to bring it to the attention of people enjoying the Packet. These are the signatures that he was able to collect over a four hour period. You will notice several are children. Although I realize this is a non-binding non-legal petition I do believe it expresses the opinion of people enjoying the packet. I also respect his efforts to be proactive and also in school.

space on the intersection in front of Screamin' Mimis  
and Create It
