Peacetown requesting City Council proclaim CeaseFire in Palestine

As a woman who practices peaceful means, as best as possible, as well as many people I know, I am advocating for communication and dialogue over violence and non-communication. I am a strong advocate for our local and federal government to protest Israel further destroying Palestine, killing Palestinian people, families, women, men, and a shocking number of children and displacement of its population in pursuit of Hamas terrorists. Skillful means is what is needed, not more violence.

Please add me to the growing number of alarmed citizens of the USA and here in Sebastopol, to CEASEFIRE NOW.

Thank you.
