

Your Energy Efficient and Resilient HOME

FREE WORKSHOP

WHAT USES THE MOST ENERGY IN YOUR HOME?

- What repairs or upgrades around the house will make the biggest impact on your energy bills?
- What DIY projects can you tackle yourself?
- Why all the buzz about going all-electric?

We dig into all of that and more during our free Home Energy Workshop brought to you by the County of Sonoma's Climate Action and Resiliency Division.

Presentations will also include information about current and upcoming incentives, rebates, and financing to get your projects done.

Registration recommended but not required. Pre-registered attendees will receive an additional drawing ticket for the Home Energy Score.

To register for a workshop or to learn more contact us at:

(707) 565-6470 | energy@sonoma-county.org

COME EARLY FOR:

- Light refreshments
- Giveaways
- A drawing for a Home Energy Score Rating valued up to **\$450***
