To whom it may concern,

I am taking issue with a report that states that the press will now have to reach out and only receive information from the Mayor. This is not the freedom that is discussed in our constitution of the United States. I do not want this to become the way that the City of Sebastopol has its information funnelled through one person who decides what is to be said and not said. This is the United States, not Russia!

Everyone on the council has a voice and should have a right to use it!
