
1/21/2025 SEBASTOPOL CITY COUNCIL
ACTION ITEM:

Active Transportation Plan

Agenda

- 1 **Overview of Public process**
 - 2 **November 19, 2024, Council Direction**
 - 3 **SCTA Process**
 - 4 **Requested Action**
-

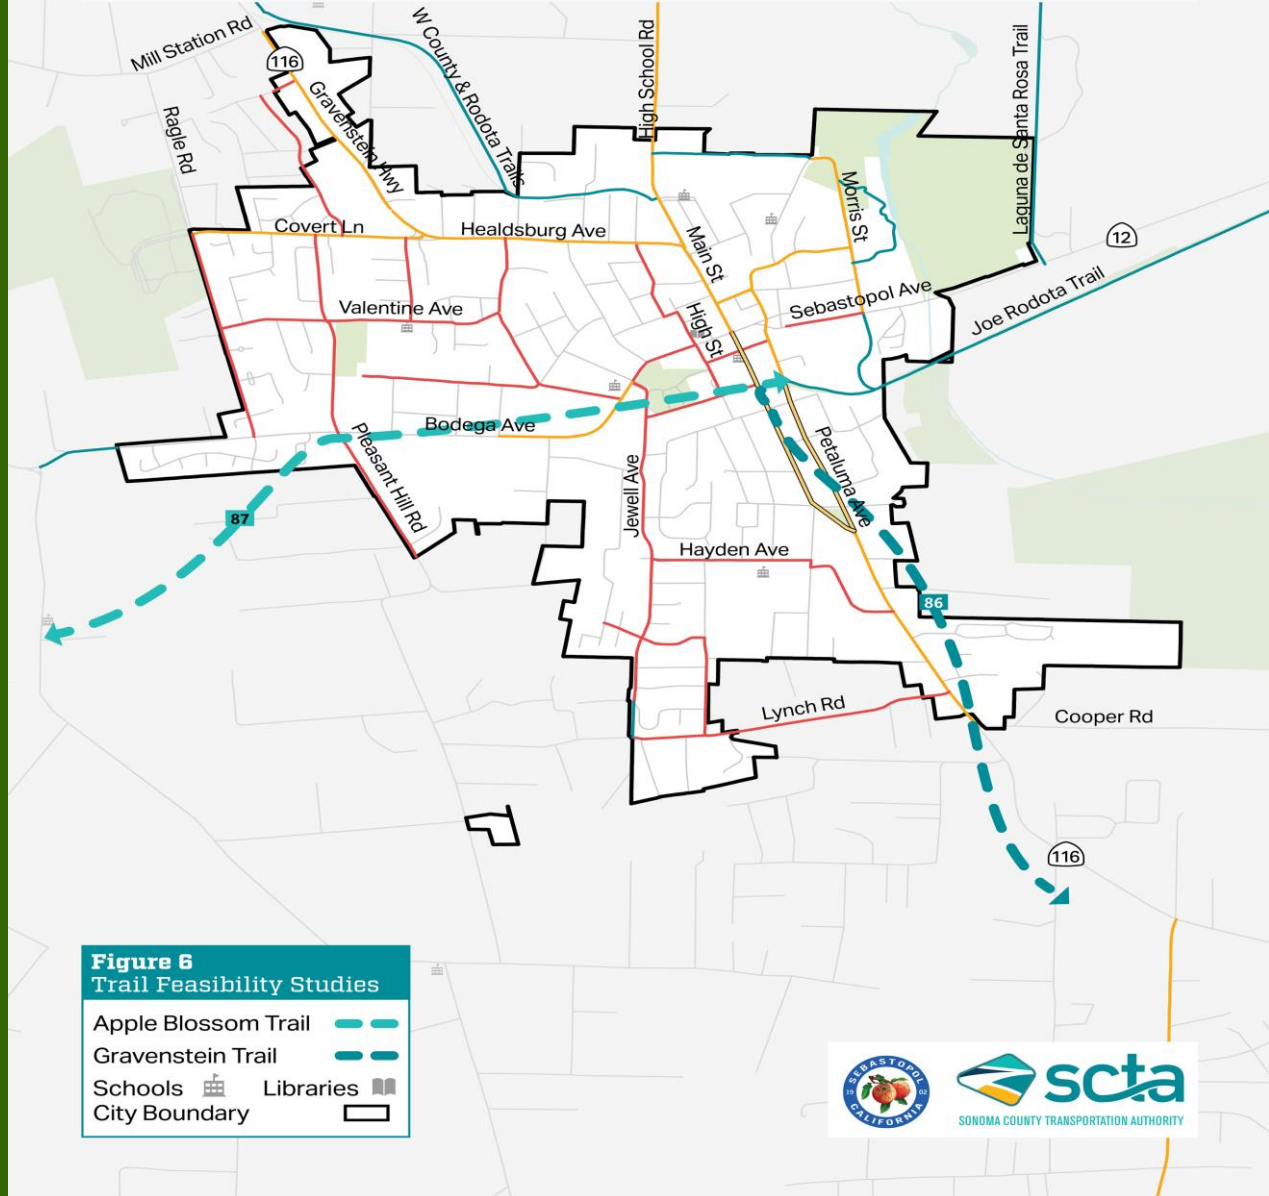

Original Map Aspirational Trails

Figure 6 shows conceptual alignments of potential future trails that have been identified as desired by the community. Specific alignments have not been formalized; the community has expressed interest for these connections to be made by an off-street trail. Advancing these trails will require future study and additional community engagement. The dashed lines shown in the figure are an approximate location only; the final alignment will depend on a number of factors. Examples of factors that would need to be considered include opportunities for land dedication, topography, utilities, maintenance needs and responsibilities, insurance, constructability, and funding availability.

Planned Trails; Feasibility studies needed

Figure 6 shows conceptual alignments of potential future trails that have been identified as desired by the community. Specific alignments have not been formalized; the community has expressed interest for these connections to be made by an off-street trail. Advancing these trails will require future study and additional community engagement. The dashed lines shown in the figure are an approximate location only; the final alignment will depend on a number of factors. Examples of factors that would need to be considered include opportunities for land dedication or acquisition, topography, utilities, maintenance needs and responsibilities, insurance, constructability, and funding availability.

Updated project list

Table 2. Planned Infrastructure Improvements for Walking, Biking and Rolling

Project #	Project Location	Project Description	Priority
...			
86 ⁵	Gravenstein Trail	Feasibility study to consider trail alignment and access from Joe Rodota Trail to Sparkes Road.	Tier 1
87 ⁵	Apple Blossom Trail	Feasibility study to consider trail alignment and access connecting Joe Rodota Trail to Apple Blossom Elementary School.	Tier 1

OTHER UPDATES:

1. Revised policies to incorporate:

- Paving projects or other similar maintenance activities (See Page 39 Policy 2-12)
- Add mention of bike buses policy (Pg 39 Policy 3-6)
- Expanded sidewalk related policy to include locations and maintenance (See Page 36 Policies and Actions)

OTHER UPDATES:

2. Revised projects to include:

- Trail feasibility studies for the Apple Blossom and Gravenstein trails (Pg 22&23 Project list #86 and 87)
- Clarified use of separated bike lanes vs. bike boulevards (Pg 5)
- Added text to indicate potential for quick build implementation of projects (Pg 38 Action 2-7.2)
- Emphasized traffic calming as part of bike boulevards (Pg 16)

OTHER UPDATES:

3. Revised implementation information:

- Added specific steps City staff can take to initiate implementation of the ATP (Pg 40)
- Provided additional information regarding funding, use of Measure U, and clarified plan is not fiscally constrained (Pg 44)
- Added an appendix with project prioritization details (Pg 47 Appendix A)

Council Action Item - Recommendation:

Active Transportation Plan
1/21/2025

- 1) Discuss Staff's report, take public comment; and
- 2) Take action based on SCTA Grant deadlines and alternative transportation priorities:
 - Option 1:** Approve the ATP update
 - Option 2:** Approve ATP update/direct staff to return with specific modifications
 - Option 3:** Chose not to accept the recommended updates
