Hello Mary,  
Please send this email to council members.

I strongly urge you to retain the contract with Recology.  
RCRR's proposal will cost more (all factors taken into account); they will take the waste out of the County for processing increasing the carbon footprint; and Recology is owner owned.

Staff's analysis of this proposed contract is defective and consequently so are the recommendations.

Cordially,  
Paul-André Schabracq
