Dear Council,

As a former Council Rep to the ZW Committee and the CAC, I was informed of Michael Siminitus's resignation after the Council vote on tonight's Item 22.

I was surprised to learn that the appointed citizens (and former appointees emeritus) were not consulted on this service contract issue, when, in fact, they were empanelled to take on that very responsibility in their advisory capacity.

Please give them the respect of asking each body/your volunteers to discuss and comment on this issue.

I am not able to be present tonight so I am submitting this written Public Comment.

Thank you for your consideration.
